Homeowners Association Architectural Solar Request Form

The following must be adhered to while applying for a Solar Panel Installation Approval Request:

Solar panel installation must be approved by the ARC Committee prior to installation with proper request form attached. Only members who are in good standing with HOA will be considered.

Solar panels must be installed by a licensed professional.

Panels must be black; no blue panels are allowed.

Panels must be parallel and installed flat to the roof surface, no angled panels are allowed.

Panels must not be seen from the front street view of the home.

All installations will minimize viewable auxiliary equipment such as conduit and supporting structures.
